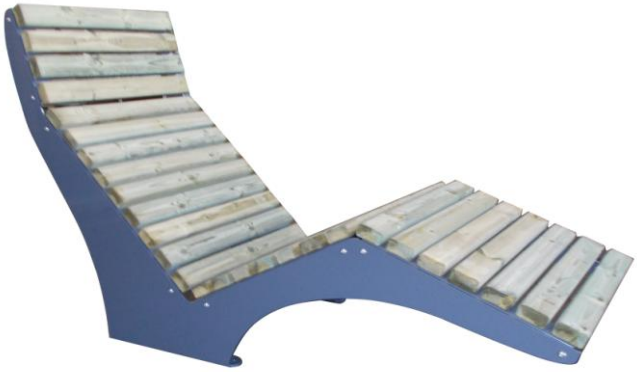
BENCH ATHENA WOOD CHAISE LONGUE	AP015L

Finitura /Finishing

GALVANIZED AND POWDER COATED



Chaise Longue Athena is made up of two robust laser-cut steel supports, with base plates for the anchoring at the ground with bolts.
Seat, backrest and footrest realized in nordic pinewood impregnated in autoclave (according to DIN 68800-3) to preserve it form the natural formation of fungi, moulds and protect it from strong weather conditions.
The timber slats are screwed to the metal structure.
All metal parts are galvanized and powder coated in different RAL colours.
Screws are in stainless steel.
