BENCH KOPER WITH BACKREST

AP029

Finitura /Finishing

GALVANIZED AND POWDER COATED

Bench Koper has an ergonomic shape, given by 2 robust laser-cut lateral supports

The seat is made of n°32 tubulars $\varnothing 16 \times 1,5$ mm, which are welded to 3 laser-shaped flanges th. 6 mm (2 on the sides and a central reinforcement).

Tubulars are closed with black PVS caps.

The seat is fixed to the side supports by means of n°10 screws (5 per shoulder) M8x30 TBEI in stainless steel.

All steel parts are galvanized and painted with thermosetting polyester powders available in different RAL colours.

The screws are all stainless steel.

Bases have 2 holes that allow the anchoring with bolts.
