**SET BONN**

**AA014PE**

Finitura /Finishing

**GALVANIZED AND POWDER COATED**

Set Bonn is a combination of metal and wooden elements. It is composed of lateral supports in 60x60 tubular, predisposed for the ground anchoring with bolts, with a plate welded at their top, allowing the fixing of wooden slats.

The seat without backrest is made of 9 slats sec. 43x55 mm in hardwood, which are fixed to plate supports.

For the variation with backrest 4 slats 43x55 mm in hardwood are fixed.

The seat (and the backrest) have a central backing, which gives more stability and linearity to the slats

The table has the same features of the bench: the top is made of 16 slats sec. 43x55mm.

Metal parts are galvanized and powder coated, and are available in different RAL colours. Stainless steel screws.

## TECHNICAL INFORMATION

Dimensions	Bench L. 1800 x 452 mm Table L.1800 x 810 mm
Height	Bench without backrest 460 mm Table 780 mm
Approximate weight	108 Kg
Packaging
