BENCH CARMEN WITHOUT BACKREST

AP052P

Finitura /Finishing

GALVANIZED AND POWDER COATED

Bench with supporting structure in tubular 30x30 mm galvanized steel and painted in various RAL colours. In the lower part the base plates are welded in order to fix the bench to the ground with expansion plugs. In the upper part are welded the plates where the wooden staves will be fixed.

The seat is made of Nordic pine slats 30x40 mm impregnated in autoclave in accordance with DIN 68800-3 to preserve the wood against the attack of fungi, mould and atmospheric agents. Hardwood can be used on request.

To give stability to the seat in the middle, a reinforcement is fixed with screws. Stainless steel screws. Elegant and modern, suitable for city centre avenues, it integrates well with both classic and modern.
