**BENCH GRAZ**

**AP065**

Finitura /Finishing

**GALVANIZED AND POWDER COATED**

The bench is made of a robust steel support, which must be concreted into the ground or fixed with bolts, realized in duly bent and welded 3 mm thick steel sheet.

The seat is made of slats in hardwood, dim. 70x45 L.2300 mm

The slats are fixed to steel backings, which serve as their support and then they are screwed to the steel foot.

All metal parts are galvanized and powder coated, available in different RAL colours.

Screws are in stainless steel.
