SET GRAZ

AA021

Finitura /Finishing

GALVANIZED AND POWDER COATED

Set Graz has a load-bearing structure in galvanized and powder coated steel, available in different RAL colours.

The supports of the table and of the benches is made with two bent steel sheets, which are coupled and welded together to the base plate, which has holes for fixing to the ground with plugs.

On their tops, supports have specific holes for fixing the wooden slats.

The seats and the table are composed of slats in Nordic pine wood sec. 70x45 mm, which are boiler-pressure impregnated, according to DIN 68800-3 norms, in order to protect the wood from the attack of fungi, molds and atmospheric agents.

If required, slats can be in hardwood.

Screws are in stainless steel.
